

Lesson 9: OpenClaw Agent Setup

AI Automation Mastery • March 29, 2026

LESSON 9: OPENCLAW AGENT SETUP

#Your AI Assistant for 80% Autonomous Operation

#■ LESSON OBJECTIVES

By the end of this lesson, you will:

1. Have OpenClaw installed and configured
2. Set up 4 specialized AI agents for your business
3. Automate lead generation, content creation, and client communication
4. Achieve 80% autonomous operation for routine tasks
5. Save 10+ hours/week with AI assistance

#■ THE BIG IDEA

OpenClaw is your AI assistant platform that can automate browser tasks, create content, and handle client communication.

The AI Assistant Math:

- Manual lead finding: 2 hours/day × 5 days = 10 hours
- AI lead finding: 10 minutes/day oversight = 50 minutes
- Time saved: 9 hours 10 minutes
- Value at \$100/hour: \$917 saved weekly

Your goal: Delegate repetitive tasks to AI so you can focus on strategy and growth.

#■ PART 1: OPENCLAW INSTALLATION & SETUP

##Installation Options:

###Option 1: Local Installation (Recommended)

```bash

Windows (PowerShell as Administrator)

npm install -g openclaw

Initialize

openclaw init

Start gateway

openclaw gateway start

```

###Option 2: Docker Installation

```bash

docker run -d \

--name openclaw \

-p 3000:3000 \

-v ~/.openclaw:/root/.openclaw \

openclaw/openclaw:latest

```

###Option 3: Cloud Hosted (Future)

- Coming soon: Managed OpenClaw hosting

- Benefits: No setup, always running

- Current: Local installation recommended

##Initial Configuration:

###Step 1: Create Workspace

```bash

Navigate to workspace

cd ~/.openclaw/workspace

Create essential files

touch SOUL.md USER.md IDENTITY.md TOOLS.md

```

###Step 2: Configure SOUL.md (Your Personality)

```markdown

SOUL.md - Who You Are

Name: AI Automation Assistant

Creature: AI Business Twin

Vibe: Helpful, efficient, proactive

Emoji: ■

Mission: Automate 80% of business operations

```

###Step 3: Configure USER.md (About Yo
