

Lesson 7: Week 1 Review & Optimization

AI Automation Mastery • March 29, 2026

LESSON 7: WEEK 1 REVIEW & OPTIMIZATION

#Analyze, Improve, and Double Down

#■ LESSON OBJECTIVES

By the end of this lesson, you will:

1. Have analyzed your first week's results systematically
2. Know what to double down on and what to fix
3. Have a clear Week 2 plan with specific goals
4. Understand how to iterate based on real data
5. Be ready to scale what's working

#■ THE BIG IDEA

Your first week's data is worth more than 100 expert opinions. Real results beat theory every time.

The Optimization Cycle:

1. Do (take action)
2. Measure (track results)
3. Learn (analyze data)
4. Improve (make changes)
5. Repeat (continuous cycle)

Your goal: Turn Week 1 experiences into Week 2 improvements.

#■ PART 1: WEEK 1 DATA COLLECTION

##What to Measure:

###Marketing Metrics:

- Facebook posts published: _____
- DMs sent: _____
- Responses received: _____
- Response rate: _____%
- Best-performing post: _____
- Worst-performing post: _____

###Sales Metrics:

- Leads qualified: _____
- Clients closed: _____
- Close rate: _____%
- Average sale: \$ _____
- Total revenue: \$ _____
- Best client source: _____

###Delivery Metrics:

- Projects completed: _____
- On-time delivery: _____%
- Revision requests: _____
- Client satisfaction: _____/5
- Reviews received: _____
- Testimonials collected: _____

###Efficiency Metrics:

- Time spent daily: _____ minutes
- Revenue per hour: \$ _____
- Automation level: _____%
- Templates used: _____
- Time saved with systems: _____ hours

##Exercise: Collect Your Week 1 Data

Fill in your actual numbers:

Marketing: Posts _____, DMs _____, Responses _____, Rate _____%

Sales: Leads _____, Clients _____, Revenue \$_____, Avg \$_____

Delivery: Completed _____, On-time _____%, Satisfaction _____/5

Efficiency:
