

Lesson 5: Daily Operating System

AI Automation Mastery • March 29, 2026

LESSON 5: DAILY OPERATING SYSTEM

#The 30-Minute/Day Workflow for Consistent Results

#■ LESSON OBJECTIVES

By the end of this lesson, you will:

1. Have a 30-minute/day workflow that generates \$100-300
2. Know how to batch tasks for maximum efficiency
3. Have systems for tracking progress and optimizing
4. Be able to work from anywhere with just a phone
5. Have a plan for scaling without burnout

#■ THE BIG IDEA

You don't need to work 8 hours/day. You need to work SMART 30 minutes/day.

The Math:

- Traditional approach: 8 hours = \$400 (maybe)
- Smart approach: 30 minutes systems = \$200/day
- Weekly: 3.5 hours = \$1,000
- Monthly: 14 hours = \$4,000
- Annual: 168 hours = \$48,000

Your goal: Systemize so you're working ON your business, not IN it.

#■ PART 1: THE 30-MINUTE WORKDAY

##The 3-Block System:

###Block 1: Morning (9 AM | 10 Minutes)

Goal: Generate leads and set intention

Tasks:

1. Check notifications (2 min)
2. Post value content (3 min)
3. Send initial DMs (5 min)

Output: 5-10 new leads

###Block 2: Afternoon (2 PM | 10 Minutes)

Goal: Convert leads and deliver work

Tasks:

1. Follow up on leads (4 min)
2. Deliver completed work (3 min)
3. Post service offer (3 min)

Output: 1-2 new clients, \$100-200 revenue

###Block 3: Evening (7 PM | 10 Minutes)

Goal: Review, plan, optimize

Tasks:

1. Review day's results (4 min)
2. Plan tomorrow's work (3 min)
3. Optimize systems (3 min)

Output: Clear plan, improved systems

##Exercise: Schedule Your 30-Minute Day

Set calendar reminders for:

- Morning block: _____ AM
- Afternoon block: _____ PM
- Evening block: _____ PM

Tools needed:

- Phone with Facebook, email, messaging apps
- Google Sheets for tracking
- Notes app for templates

- Timer app (optional)

Action: Set these reminders now.

#■ PART 2: BATCH PROCESSING

##What to Batch:

###Content Creation (Sunday, 30 min
